Add to any leader		0,125		38	76
Most of our polyester film is 125µm. Blue leader is 180µm					
Acetate typically 135µm ( 1 mil is 25µm )					
We also deliver LF3 polyester hazy white in 35mm 915 meter rolls without perforation.					
Perforation					
Orwo delivers any film with or without perforation according to ISO 491					
Type N perforation may be employed for camera and intermediate films					
Type P perforation may be employed for print films					
When choosing N perforation, specify short pitch or long pitch					
Sound Recording Film only short pitch negative or positive
